Dear Joe

I wanted to acknowledge and thank you for the 15 years of support and service you have provided to me and the company's I have been associated with, including Starbucks Coffee, Chevy's Mexican and now Quiznos Sub. Whenever I have joined a new company to assist with their development, you are always one of the first vendors I reach out to ensure that their process is properly structured to succeed.

Your ability to work within so many jurisdictions to expedite reviews and approvals has always been astounding. Your sense of "Ownership" of the projects and related issues is a trait that has allowed you to succeed on behalf of the client. The number of times you have achieved a solution to what appeared to be an insurmountable problem is too many to count. You manage this entire process with a continued sense of ease and pleasantness.

I look forward to a continued relationship between my team and you.

Sincerely,

Todd Barry Goldstein  
Regional Director of Construction  
Quiznos Sub
